Education

Computer Science, Diploma

Acharya Shrimannarayan
Polytechnique College
August 2017 - August 2021

Electronics &

Telecommunication, B.Tech

Bapurao Deshmukh College of
Engineering
January 2022 - June 2024

Technical Skills

- HTML5
- CSS3
- Git
- React
- JavaScript
- Redux
- Node.js
- Express.js
- Prompt Engineering
- MongoDB
- RESTful APIs

Soft Skills

- Attention to Detail
- Adaptability
- Teamwork
- Problem Solving
- Effective Communication

Certifications

Web Developer

Xenosis IT Solutions

Gained hands-on experience in web development by working on various projects involving the design, development, and maintenance of websites and web applications.

Paper Publication

IRJMETs

This project is an IoT-based health monitoring system designed to continuously check the real-time health parameters of a patient and display the data on both mobile devices and computers using wireless technology.

Data Science

acme grade

Contributed to data analysis and predictive modeling projects as a Data Science Intern.

Chetan Chaudhari

Full Stack Web Developer

Professional Summary

Dynamic full stack web developer with strong skills in JavaScript and the MERN stack, including React.js, Node.js, and MongoDB. Proficient in creating scalable applications and efficient APIs. Skilled in leveraging Generative AI for innovation and quickly adapting to new technologies.

Experience

Xenosis IT Solutions | Web Developer July 2024 - August 2024

- Collaborated effectively with cross-functional teams to deliver high-quality, scalable solutions.
- Utilized JavaScript, HTML, and CSS to create responsive and accessible front-end components.

acme grade | Data Science September 2023 - October 2023

- Analyzed complex data sets to extract valuable insights for decision-making.
- Utilized machine learning algorithms to predict trends and optimize processes.

Projects

E-commerce Web Application [Live Demo Link](#) [Github Repo Link](#)

HTML5 CSS3 JavaScript Node.js Express.js

Responsive Web Design

- Implemented frontend components with HTML, CSS, and JavaScript to effectively render product details from the Fake Store API.
- Leveraged DOM manipulation techniques to provide sorting functionality based on user preferences, ensuring a personalized shopping experience.
- Designed a responsive user interface to maintain optimal usability across various devices and screen sizes.

RESTful API for To-Do List Management [Github Repo Link](#)

JavaScript Git Node.js Express.js RESTful APIs

File System (fs) Module

- Designed and developed a RESTful API using Express.js to facilitate CRUD operations for ToDo list management.
- Implemented endpoints to fetch, add, update, and delete ToDo items stored in a JSON file, ensuring data integrity and accessibility.
- Utilized the 'fs' module for efficient file handling and storage operations, maintaining consistent and reliable data management.

H&M E-commerce Website [Live Demo Link](#) [Github Repo Link](#)

React Redux JavaScript CSS3

Responsive Web Design

- Built an e-commerce platform using React and Redux, featuring Firebase for real-time product data management.
- Created a secure user authentication system with Firebase Authentication and role-based access.
- Implemented comprehensive state management and responsive design using Redux and Chakra UI components.
